

CMPUT 301 F2024 tigers UI Mockups and Storyboard Sequences

Administrator

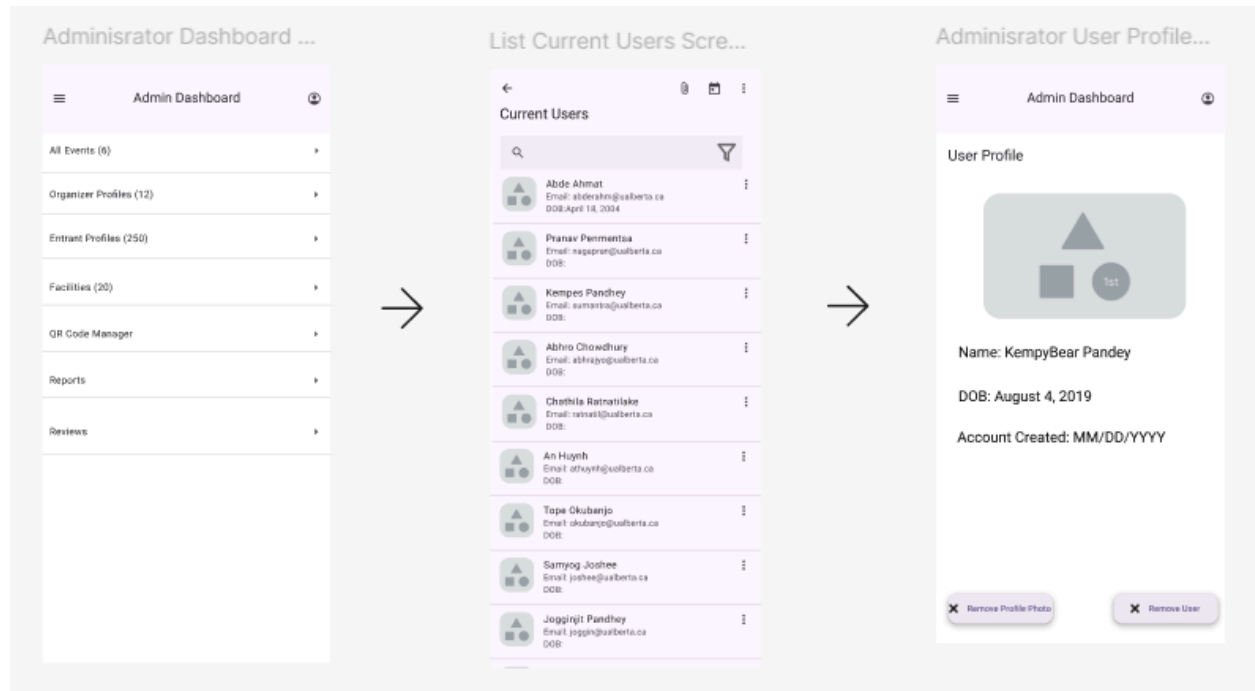

Figure 1.1. Administrator basic views, the administrator may click entrant profiles to open the list of all current users with basic information on them. The administrator may further click on a specific user for certain actions.

Organizer

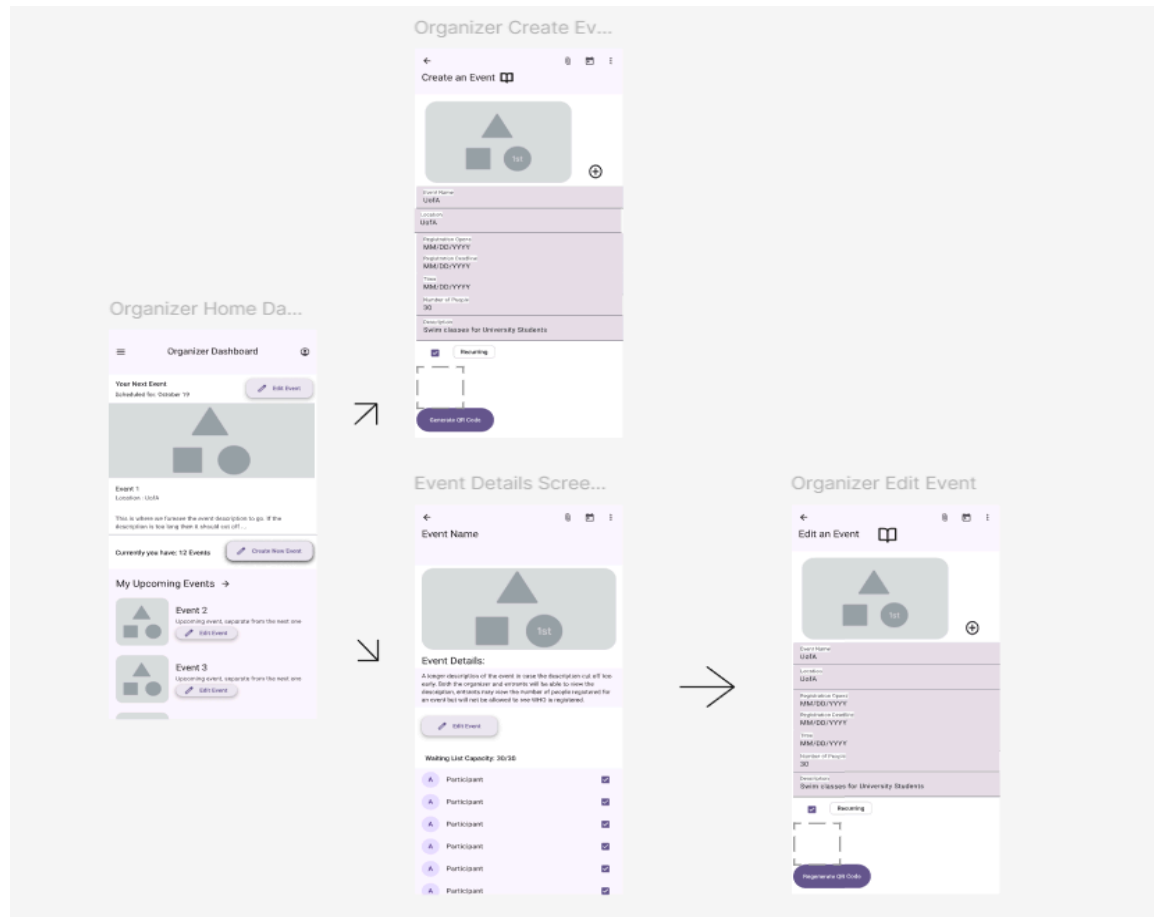

Figure 1.2. Organizer views, the organizer will only have access to their own events and be able to edit them however they see fit. In addition they may view the participants registered for each specific event. The edit event screen may be accessed from the home dashboard or the event details screen.

Entrant

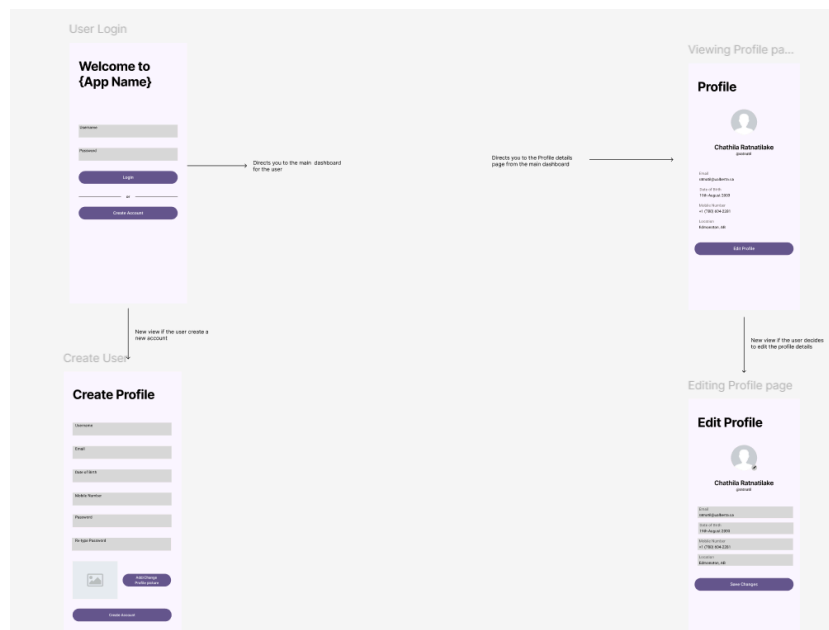

Figure 1.3. Entrant profile creation and editing page. The entrant may choose to login, and then be able to edit their profile, or access the profile creation page.

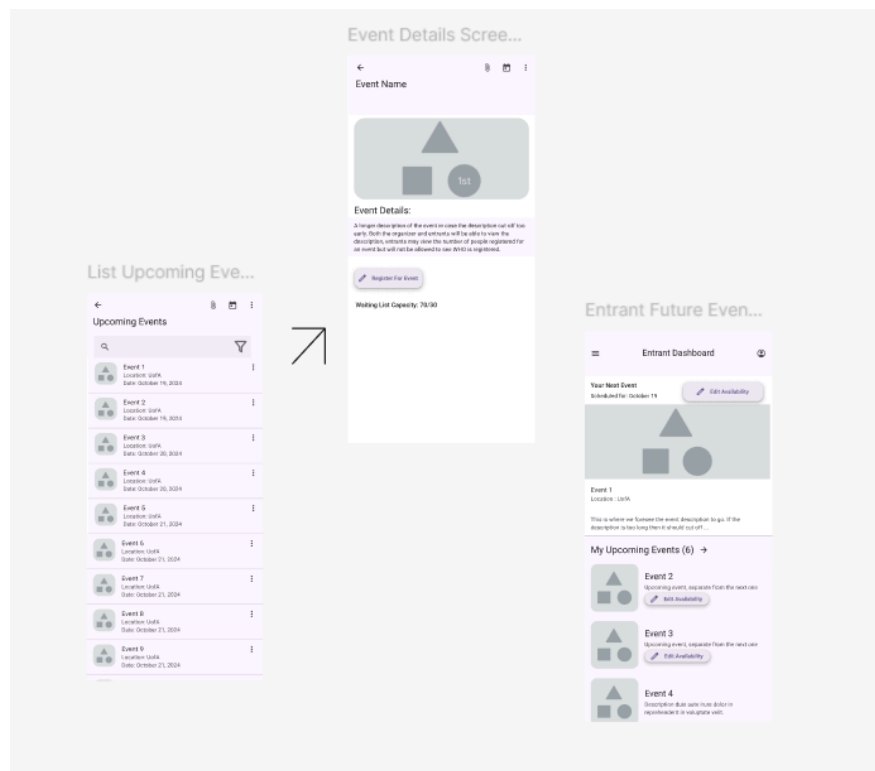

Figure 1.3. Entrant views, the upcoming events tab may be accessed using the 3 lines in the upper left corner of the event dashboard. Participants can edit their availability (leave the waiting list) for an event, removing it from their dashboard as well as see the number of spots available for an event.
